

ROHINI TEMBHURNIKAR

Data Analyst

(+91) 8010132326 | rohinitembhurnikar3@gmail.com | Gondia, Maharashtra | [Portfolio](#) | [LinkedIn](#) | [GitHub](#) | [Tableau](#)

PROFESSIONAL SUMMARY

Detail-oriented data analyst with a strong foundation in statistical analysis, data visualization, and data driven decision making. Proficient in using tools like Python, Excel, SQL, Tableau to extract actionable insights from complex datasets. Experienced in creating and maintaining data pipelines and dashboards that improved operational efficiency. Proven ability to communicate complex findings in a clear manner to both technical and non-technical stakeholders. Passionate about leveraging data to drive business growth and support decision-making.

SKILLS

Programming Languages: Python (Pandas, NumPy, Matplotlib, Seaborn, NLP, Machine Learning), SQL

Analytical Tools: Tableau, Google Looker Studio, Power BI, Excel, Google Sheets

Data Management: Data Cleansing, Data Research, Data Analytics, Data Visualization, ETL Pipelines

Soft Skills: Communication, Critical Thinking, Problem-Solving, Attention to Detail

WORK EXPERIENCE

Data Analyst Intern, TopN Analytics

Remote – Pune | Oct 2024 – Mar 2025

- Built 4+ interactive dashboards in Tableau and Looker Studio across Procurement, Retail, Sustainability, and Executive domains, accelerating reporting efficiency by 40% and enabling faster decision-making for 3+ stakeholder teams.
- Scraped and processed 1000+ rows of real-time data using Python and Beautiful Soup, applied NumPy and Pandas for cleaning, improving data accuracy by 85%.
- Collaborated with cross-functional teams to translate business needs into analytical solutions, resulting in increased dashboard adoption across departments.

PROJECTS

Employee Performance Dashboard | Tableau, Excel | [Link](#)

- Developed a dynamic Tableau dashboard to evaluate employee performance using a weighted Employee Score (Productivity 40%, Satisfaction 40%, Feedback 20%), enabling department-wise and role-based ranking.
- Implemented custom sorting, ranking logic, and interactive filters, empowering HR teams to streamline performance reviews and identify top/bottom 10% performers for strategic workforce planning.

Supply Chain Dashboard | Tableau, Excel | [Link](#)

- Designed a two-page Tableau dashboard to monitor product performance and shipping efficiency, integrating KPIs such as revenue, stock levels, defect rates, and shipping costs.
- Enabled supply chain teams to identify top-performing products and optimize logistics, contributing to a potential 25% improvement in supplier evaluation and shipping cost analysis across five major cities.

Customer Churn Report | Tableau, Excel | [Link](#)

- Analysed 9,000+ customer transactions to uncover key factors driving churn, suggesting to a 5% increase in retention.
- Delivered actionable insights to support strategic decision-making and improve customer retention strategies

LinkedIn Job Market Analysis (2023) | Python | [Link](#)

- Conducted analysis on 1,000+ LinkedIn data analyst job listings using text preprocessing and frequency analysis to uncover trends in job titles, locations, employment types, and industries for data-related roles.
- Generated keyword insights and demand hotspots, helping job seekers align with top 5 in-demand roles and cities—improving targeted application strategies by over 40%.

Customer Segmentation | MySQL | [Link](#)

- Conducted advanced SQL-based analysis on customer data, extracting insights into demographics, spending behaviour, and satisfaction levels.
- Performed RFM analysis, cohort analysis, and CLV calculation; identified top 5 spenders, churn rate, and product category trends, enabling strategic segmentation and targeted marketing.
